October 29, 2012

AUTHORIZATION FOR SOLID WASTE AND RECYCLING FACILITIES TO TEMPORARILY INCREASE OPERATING HOURS DUE TO SEVERE WEATHER EVENT

As a result of severe weather resulting from Hurricane Sandy and acting under Executive Order No. 104 dated October 27, 2012 and Commissioner Martin's Administrative Order of October 28, 2012, the Solid and Hazardous Waste Management Program hereby approves an increase in the approved operating hours of all solid waste facilities (i.e. incinerators, landfills, and transfer stations) and Class B and Class C Recycling Centers. **These types of facilities may operate on a 24 hour basis from October 29, 2012 through November 9, 2012.** The additional hours of operation allow for acceptance of materials and processing of materials.

Facilities must maintain compliance with all other requirements of their solid waste facility permits or recycling center approvals. **This approval applies only to hours of operation. Facilities seeking an increase in capacity must submit a written request to solidwasteemergencies@dep.state.nj.us and include the increased tonnage and duration requested.**

If you have any questions regarding this notice, please contact the Department at (609) 292-9880 or through the e-mail address above.

Mary Jo M. Aiello, Director

Solid & Hazardous Waste Management Program
